

HOLOGRAM

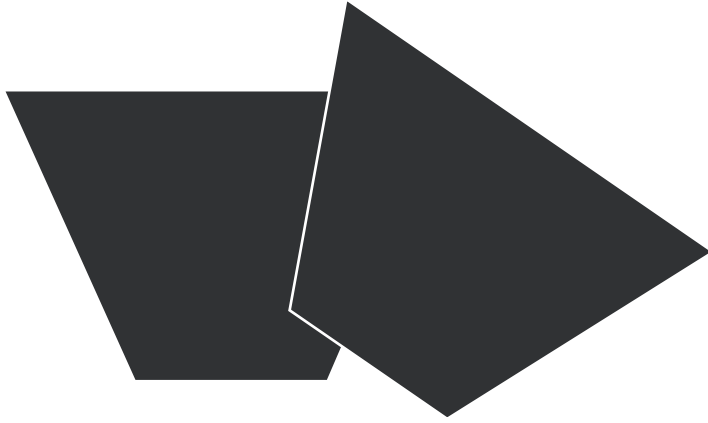

INNOVATION WYRKSHOP

INNOVATEHER

CLUB

MATERIALS PROVIDED

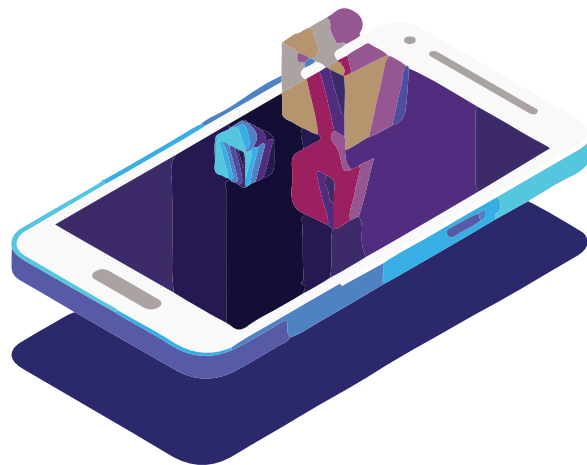

hologram pieces x4

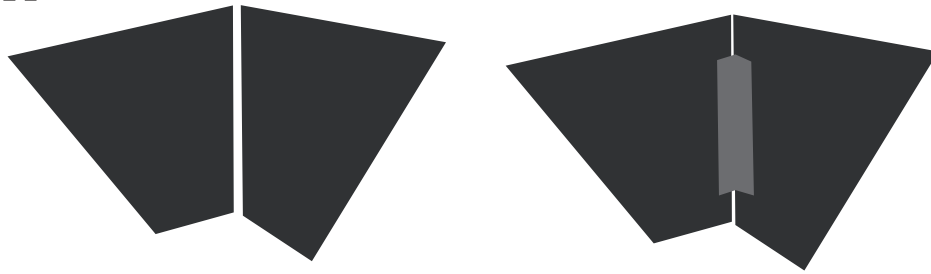

stickers x4

MATERIALS NEEDED

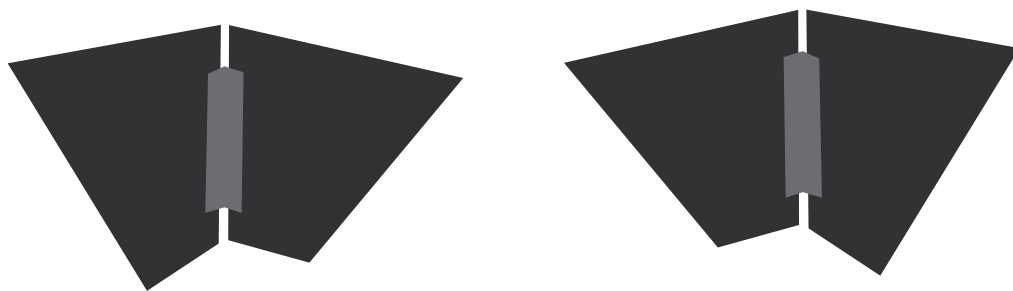

smart device (phone or tablet)

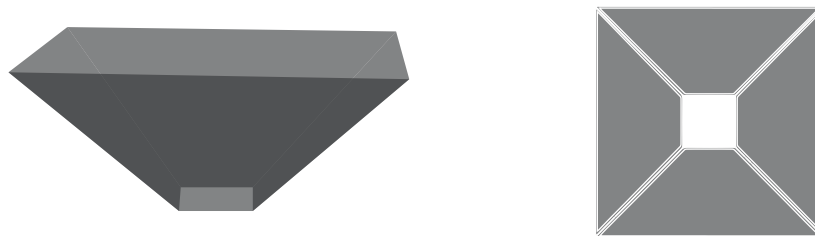

STEP 1: Assemble two of the hologram pieces so that they make a right angle. Then place a piece of tape on both sides to connect the two pieces together.

STEP 2: Repeat Step 1 with the remaining two hologram pieces.

STEP 3: Connect the joined pieces from Step 1 and Step 2 and use the remaining tape to join all four pieces. You should have a (relatively) square shape on the bottom.

STEP 4: Place your hologram on top of a smart device playing Hologram designated videos. A few examples can be found at: <https://www.youtube.com/watch?v=vTufphdowDw> (butterfly hologram) and <https://www.youtube.com/watch?v=NLTqazgsSBM> (fireworks)
